

Developer

Designed to be relevant in today's rapidly changing IT marketplace, Microsoft Certifications help clients utilize evolving technologies, fine-tune their troubleshooting skills, and improve their job satisfaction. The Microsoft Certified IT Professional (MCITP) and Microsoft Certified Professional Developer (MCPD) credentials validate that an individual has the comprehensive set of skills necessary to perform a particular job role, such as database developer or enterprise application developer. This certification roadmap shows the exams that apply to the various MCITP and MCPD designations.

Job Role	Focus	Technology	Exams	Certification Path
